EDUCATION

Bloc
Certificate in Web Development 2015

King University
B.A History 2012
Who's Who Among Students in American Universities & Colleges, Snider Honors Program.

EMPLOYMENT

NCSA Athletic Recruiting
Software Engineer
Chicago, IL
Jan 2016 to Current

Improved the existing integration with Salesforce by refactoring legacy code and tweaking flows using APEX. Developed new features for our Rails API for mobile applications. Setup a new microservice using Elixir and Phoenix to streamline an integration with a piece of third-party software.

Bloc
Web Development Mentor
Remote
May 2015 to Current

Lead students through the Web Developer Track curriculum. Meet one to three times a week with students and provide code review, feedback on progress, teach fundamental concepts, pair program and generally support the student's success in landing a developer position.

Octiv
Software Engineer
Indianapolis, IN
Mar 2015 to Dec 2015

Developed a task management system and a full-fledged message and notification center using Rails, React and EmberJS.

Charles Schwab
Stock Broker
Indianapolis, IN
Nov 2012 to Mar 2015

Assisted clients with placing trades and maintaining their brokerage and bank accounts. Passed the Series 7 and 63 license exams for Registered Brokers.

PROJECTS

Fight Prophecy
Mar 2017 to Current

Fight Prophecy makes predictions on the outcome of matches between two MMA fighters. Written with React and Elixir, Fight Prophecy uses a microservices architecture to allow for flexible deployment and scaling.

Null Record
Jun 2016 to Current

Null Record is a small Ruby gem I wrote to make implementing the null object pattern with ActiveRecord objects easy.

SKILLS

Rails, Ember, React, SQL, HTML, Javascript, Ruby, NGINX, Apache2, Angular 1.x, Docker, Go, Elixir
